

PF-PRO AUTO PRINTER

PF-PRO AUTO PRINTER • Industrial Disc Printing

Utilising Microboards' patented disc singulation technology, the PF-Pro is designed to print hundreds of discs on a weekly basis. Its 100-disc throughput capacity allows for unattended operation.

By utilising the latest in HP inkjet technology, the print speed and quality of the industrial PF-Pro Auto Printer is unequalled among disc printers. Separate C, M, Y, and Black ink cartridges means zero waste – and the lowest possible cost-per-disc, as low as 7 pence for a full coverage print. One set of ink cartridges can produce 850 to 1,500 discs. Disc designs utilising light text-only coverage could have a cost-per-disc as low as 2 pence, and throughput at upwards of 250 discs per hour.

The included software suite for the PF-Pro includes simple label design software. Design your label from a point-and-click application, or use popular design programs such as Photoshop® and import directly to the software. Publishers with recording ability include recording & job creation software for both Mac and PC, including support Windows 2000, XP, and Vista.

Also Available:
The MX-1 and MX-2 Disc Publishers, which use the same great PF-Pro print engine, include either one or two CD/DVD/BD combo recorders. Record or copy virtually any CD recordable or DVD +/- Recordable format, including Dual Layer DVDs!

Part No.: PFP-1000

Disc Input: 100

Typical Weekly Throughput: 250+ Discs

Ink Cartridges: 4 Cartridges: C, M, Y, K

Printing Technology: HP thermal inkjet

Cost per Disc: 7 to 11 pence (full-color, full coverage)

Print Resolution: 4800 dpi

Label Design Software: SureThing (PC)

Compatible Operating Systems: Windows 2000, XP, Vista (32-bit PC OS Only); Mac OS 10.5.X - 10.6

Minimum Processor: P4 3.0 GHz or higher

Minimum RAM: 512 MB required, 1 GB recommended

Hard Drives: 1 - 7200 RPM IDE or SATA

Connectivity: USB 2.0

Weight: 19 kg

Dimensions: 23cm H x 56cm D x 56cm W
